
difference between the signal that the encoder generates and the signal that the decoder decodes. In this case, the operator has no way of determining whether there is an error in either the encoder or the decoder. Curt and Andi discuss your birthday, winter weather, and the week ahead. The topic: We have a theme, and it's a good one: Misery. On this week's show: If you'd like to call in, leave a message at 202-660-9090 (toll-free). Music: "F ba244e880a
