89 item. What We've Been Reading. Your
CPM is Not Just About Your Targeted
Keyword List While your keyword list is
important, your CPM (cost per mille) is
even more important. Why is the CPM so
important? What's the deal with all the
CPM numbers you see on Pinterest or on
other platforms? The CPM refers to the
amount you're willing to pay for 1000
impressions (or "impressions"), as
measured by Google Adwords. Think
about it. If you spend \$1 on Adwords and
get 1000 impressions, you'll make \$1000.
You've made money. You've spent

money. You've earned money. Now let's say you spent \$4 on Adwords and get 1000 impressions. What would your CPM be? It would be \$4000. You'd make \$4,000. You'd spend \$4,000. You'd get \$4,000. You'd earn \$4,000. It doesn't take a genius to figure out which one you'd choose. Why is that? It's because you're offering your visitors an incredible amount of value for the price. You're getting your message across to your audience in a cost-effective way. Your CPM is the amount you're willing to pay for 1000 impressions. It's the amount of money you're willing to spend on getting your message across. Now, if you're spending \$4 on Adwords and getting only

100 impressions, your CPM is only \$400.

That means you
