No matter what style of music you play or aspire to, this tab player will let you sound like a pro. There's a library of more than 15,000 classic songs by King Sunny Ade. You can't go wrong with this classic hit maker. Songs include: Waigola, Ona Ani Akowo, and Dada Gana. Music note search feature: you can play your chords using auto-magical search and you can also learn a new song using the no random search. Create tune with voice like a singer: you can sing like a star by pitch bending those mid-range tones in the song. A perfect chord in action: chord progressions of any length and complexity Tune and Transpose: if you can learn how to tune a guitar you will never need a stand. 11 build in tuners, five DAWs, MIDI, Voice label, auto-chord, export, learn songs from King Sunny Ade. Grab and go with your own backup controller (seriously). GET the Forte 3D app, and use the same device and a single USB cable as your Sony PC. In fact, your computer will think it's plugged directly into your Forte. Connect to your Cloud account, and pick up where you left off instantly. You'll also be able to store your favorite device shortcuts in your Cloud library, so you can instantly start jamming and perform anywhere, without starting the computer. The only limits to your creativity are your imagination and the constraints of your practice room. Don't miss your chance to flex your creative muscle. ◇ iPad: Display Video in Fullscreen, with Software Control A Pro's Personal Video Workstation Professional photo or video editing require a lot of time and lots of money to invest in your equipment. The tab player that listens is now available! The Tab Player that listens lets you easily learn to play guitar. You don't need any expensive and complicated equipment or a teaching staff to master guitar. All you need is an Audio Interface like the Audio-Technica AT2020, that will let you record your guitar as you play it, and put your recordings in your favorites section. It lets you play the song you want to learn, without changing the tempo, which means that you'll learn to master the timing of the song automatically. The audio recordings will allow you to review your mistakes and understand where they occurred. You'll quickly achieve amazing results and will be ready to play your favorite songs with the same ease that you practiced the chords of this track. The application is completely free, and it has a user-friendly interface. You don't need any tutorial to learn how to use it! The first thing you'll need is to load a guitar, configure its audio input, then load a song to be played. You'll also need a microphone. To optimize the audio quality, it can be connected or used wireless. The audio interface will accept your guitar and microphone and will allow you to play the songs you want to learn. You'll be able to see the notes in each measure, so you'll be able to tell exactly where they are. The application will show you, how many times you need to play a measure to achieve a good result. And if you see some mistakes, you can add notes and change them. Once you've got a good habit you can start to improvise. So if you want to play a song you like, but you can't sing to save your life, this app is for you. Don't want the advanced features? Use the playlist mode, where you can play multiple songs at the same time. Just try to play the guitar without knowing the lyrics and let your fingers do the talking! No matter if you're a beginner or an experienced player, this is the software that you need for your guitar.
