The Art Collector Organizer Pro Program is a small set of custom designed software tools used to help keep track of, catalog, analyze, and research art collections. Typically used by Art Collectors, the tools have been thoughtfully designed to provide the novice and experienced collectors alike with a rapid and efficient solution to their collection information needs. There are 4 main concepts behind the Art Collector Organizer Pro program: Track & Analyze Collections: We've designed the program specifically for artists, collectors and researchers, and have made it a simple task to catalog, track, and view all of your art collections. Provide Easy Access: We've tried to make everything in the program as simple as possible. We've put an effort into making the most frequently used tools and features in one place, so finding information is simple and quick. Organize Information: Another concept behind the Art Collector Organizer Pro program is organizing information and documents in an easy-to-use and clean program. We've done our best to display all of your information in a very user friendly format. Organize Your Collections: We wanted to make it easy to go through your collections, by breaking your collections down into meaningful groups. So we've made a collection more like a database table, so you can easily track and locate any part of your collection. What's New? Added Upload Files as a document type. Added Artists Group.
