The Power BI Toolkit can quickly empower you to take your data to the next level. Microsoft's free software is available as a download on the Power BI website. The Power BI Toolkit provides developers with easy access to the Microsoft.PowerBI.dll assembly, the Microsoft.PowerBI.Adapters.dll assembly, and a set of 12 design time components. These tools make it easy to use standard data visualization controls, such as charts, tables, pie charts, and diagrams. Many of these controls can also be deployed directly to an Excel worksheet or OneNote page. With the Power BI Desktop Visualization Editor, you can create and customize dashboards and reports. After analyzing your data, you can create advanced dashboards and reports. This free Power BI application is available in two editions – Standard Edition and Premium Edition. You can use the free version for creating workspaces of up to 2GB in size. In addition, it requires Microsoft Office 365 Pro Plus, which costs \$49.95 per year or \$3.50 per month. The Premium Edition, on the other hand, makes use of the full power of the Power BI technology, allowing you to use the data for many different purposes. You can create spaces of up to 2 TB. In addition to working with Power BI, you can also use the Power BI Toolkit to create web apps and web dashboards. It provides Power BI Dax Services.
