Field of the Invention This invention relates to a swingable hanger assembly, particularly for suspended ceilings. 2. Description of the Prior Art A suspended ceiling system utilizing hanger clips, such as those disclosed in U.S. Pat. No. 4,550,983 to Vogel and U.S. Pat. No. 4,270,451 to Weber, typically requires a hanger assembly in each suspended ceiling frame to support the actual suspended ceiling. Such a hanger assembly consists of generally U-shaped hangers, usually held together by a non-rigid U-shaped connector which is typically screwed to the ceiling frame, and the hanger members are then attached to the hanger assembly by hook-type brackets. At the same time, the clip-type hangers can be attached to the hanger assembly, using a different type of hook-type brackets. This arrangement is intended
